SETTLEMENT CONSORTIUM

About WSRSC Consortium

The Western Sydney Region Settlement Consortium (WSRSC) was officially launched on 1 October 2024 as a strategic initiative led by SydWest Multicultural Services to improve settlement outcomes for newly arrived refugees and humanitarian entrants across Western Sydney. Formed through a partnership of four established and trusted multicultural organisations and settlement providers, the Consortium delivers services under the Settlement Engagement and Transition Support (SETS) program, funded by the Department of Home Affairs.

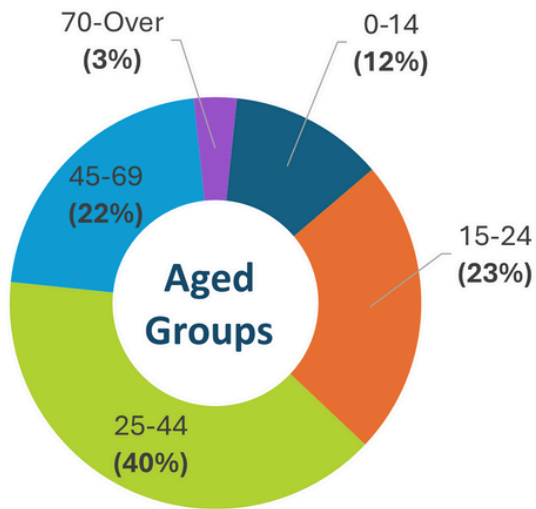

Prior to the current SETS program, all four consortium member organisations had previously provided settlement services under the Department of Home Affairs' Settlement Grants Program, as well as the SETS Client Services (SETS-CS) and SETS Community Building (SETS-CCB) programs.
